Dear Judge Isgur:

Hope all is well. I am writing a witness impact statement to make you aware that Carbo Ceramics Inc. Case # 20-31973 is being done unjustifiably to the detriment of their common shareholders & to the benefit of Wilks Brothers LLC. Carbo Ceramics I believe intentionally refused to put the company up for sale so the Wilks Brothers LLC could acquire the company on the cheap & with no bidding competition. If you would please take into consideration or inquire with Carbo Ceramics why they never tried selling company on the open market I would be appreciative. I'm just a small time investor that feels like I got taken advantage of so insiders & the biggest shareholder Wilks Brothers LLC could benefit. You're my last hope to prevent bankruptcy from getting approved & make sure justice prevails. The reason Carbo Ceramics is doing this voluntarily is so they can keep their jobs & down the road take the company public again & Wilks Brothers LLC will unjustifiably profit because they're currently getting the company by design on the cheap with no competition regarding offers from interested companies or buyers. I'm hopeful you will consider my evidence I provided & come to a conclusion with a just outcome by not approving bankruptcy & forcing Carbo Ceramics to solicit offers for the company. Please let me know if you need any additional information & thanks for your consideration. I can best be reached above or at [www.am-capital.com](http://www.am-capital.com) Thanks again for reviewing information.

Sincerely,

Aaron Miller
